HANDICAPPING

In all handicap classes yachts will be handicapped according to their rating under the Universal Rule.

Any yacht is eligible for any event in her class provided that her Measurement Certificate is in the hands of the Chairman of the Race Committee before 5:00 P. M. on the second day previous to that of the event.

MEASUREMENT

The owner of every yacht starting in any race shall have placed on file with the Chairman of the Race Committee a valid Measurement Certificate signed by the Club Measurer, showing the rating of the yacht as computed in accordance with the rules of the Club. The Board of Governors has adopted for the 1935 season the Measurement Rule of the N. A. Y. R. A. under the Universal Rule of Measurement. The measurer is Davenport West, Jr.

POINT SCORING

Each yacht will be credited with points according to the following schedule:

2. A yacht that starts and does not finish, or that withdraws, or is disqualified, will not receive any points but will be counted as a starter and must be figured in determining the quotient.
3. In the event of a tie both boats will receive the same number of points. Should two boats have the same

number of points for the series the winner will be determined either by a sail-off or by the spin of a coin, the decision to rest with the Race Committee and skippers involved.

4. "Sail-overs" will not be allowed.
5. Three shall be the minimum number of starters in a race in order that such a race shall count as one of a series.
